

MOHAMED AYMAN

Full-Stack Developer — React.js • Next.js • Node.js

📍 Cairo, Egypt 📞 01060132785 ✉ mohayman080@gmail.com [in LinkedIn](#) [GitHub](#) [Portfolio](#)

Professional Summary

Full-Stack JavaScript Developer with professional experience building scalable web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in designing secure RESTful APIs, implementing authentication and authorization, integrating third-party services, and building responsive frontend applications. Passionate about developing production-ready software with clean architecture, scalable backend systems, and modern web technologies.

Technical Skills

Languages: JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, HTML5, CSS3, Sass, Tailwind CSS, Bootstrap, Redux Toolkit, React Query, Zustand, React Hook Form, Zod, Framer Motion, shadcn/ui

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, Refresh Tokens, Cookie Authentication, Role-Based Authorization (RBAC), Express Validator, Multer, Nodemailer

Database: MongoDB, Mongoose, MongoDB Aggregation, PostgreSQL

Cloud & Integrations: Cloudinary, Paymob API, Railway, Swagger/OpenAPI

Tools: Git, GitHub, Postman, VS Code, npm

Professional Experience

Frontend Developer

Mansoura, Egypt

Puiux Company

Nov. 2025 - Dec. 2025

- Developed reusable and scalable UI components using React, Next.js, and TypeScript for production web applications.
- Implemented server-side rendering (SSR) and static site generation (SSG) to improve initial load performance.
- Integrated REST APIs and implemented schema-based validation using Zod to improve form reliability and user experience.

Frontend Developer

Mansoura, Egypt

Codebox Company

Feb. 2024 – May 2025

- Built and maintained over 30 reusable UI components using React with state management via Redux Toolkit.
- Integrated RESTful APIs and managed client-side state using Redux Toolkit, ensuring reliable data flow across applications.
- Collaborated with cross-functional teams to deliver responsive and user-focused web applications.
- Improved application performance through code splitting and lazy loading, reducing load times noticeably.

Projects

CourseHub API

Node.js, Express.js, MongoDB, JWT, Cloudinary, Paymob, Swagger, Railway

2026

- Designed and developed a production-ready RESTful API for an online learning platform serving multiple user roles.
- Implemented JWT authentication with Access & Refresh Tokens, email verification, password reset, cookie authentication, and RBAC.
- Built complete learning workflows including courses, enrollments, lessons, certificates, payments, reviews, wishlists, and instructor management.
- Integrated Cloudinary, Paymob payment gateway, Nodemailer, and Swagger/OpenAPI documentation.
- Developed analytics dashboards for instructors and administrators with filtering, pagination, reporting, and revenue insights.
- Deployed the API on Railway with production-ready configuration.

Taleora

Next.js, TypeScript, Tailwind CSS v4, Zustand, Shadcn.ui, Zod

2026

- Implemented role-based admin functionality for product, order, and inventory management.
- Built a high-performance bilingual (Arabic/English) e-commerce platform for children's books with full RTL support.
- Developed a comprehensive admin dashboard with inventory management and audit logging.
- Implemented internationalization (i18n), dynamic routing, and SEO optimization using Next.js App Router.

Hospital Management Dashboard	
<i>React, Redux Toolkit, React Router, REST APIs, Data Visualization</i>	2024 – 2025
- Developed a multi-role hospital management system (admin, doctor, nurse, accountant) with 6 specialized modules. - Managed complex datasets for patient records, billing, and lab results, enhancing UX with responsive design and data visualization. - Implemented dashboards and reporting interfaces for managing patients, billing, appointments, and laboratory data.	
FundX Investment Platform	
<i>React, Vite, React Router v7, React Query, Bootstrap 5, Chart.js, Zoom API</i>	2024 – 2025
- Built a dynamic single-page investment platform with personalized watchlists and real-time notifications. - Integrated Zoom API for virtual investor meetings and developed PDF export reporting. - Optimized performance and ensured seamless UX across all devices.	

Education

Mansoura University		Oct. 2021 – Jul. 2025
<i>Bachelor of Computer and Information Sciences – Software Engineering</i>		
<i>Mansoura, Egypt</i>		
National Telecommunication Institute (NTI)		Apr. 2026 – Jun. 2026
<i>Open-Source Applications Developer – 420-Hour Full-Stack Web Development Program</i>		

Languages

Arabic	Native
English	Intermediate
